Frequently Asked Questions

Q: *What was the motivation behind forming the KiMe Fund?*

A: The Founder has experienced PD in his own family, including his own diagnosis on January 28, 2009. Recognizing a realistic opportunity to be a part of curing a disease was an opportunity he could not resist.

Q: *What does “KiMe” represent?*

A: KiMe is the Founders shorthand for his two daughters, Kim and Megan. It is symbolic of the drive to cure neurological disorders, including PD, before the next generation of children everywhere are diagnosed.

Q: *How do you decide on which organization will receive the donations?*

A: Funds will be distributed to reputable organizations (with reasonable administrative expenses) focused on finding a cure.

Q: *How much of the money donated actually goes to a finding a cure?*

A: Our goal is that 90%, after event expenses, of the donations received by the KiMe Fund will be directed to finding a cure.
